How our service works: Digital asset selling

Monetize all kinds of digital asset in three simple steps

1

UPLOAD

Upload assets to the decentralized network in just one click

Premade visual scripts make it easy for everyone.

Every asset is automatically standardized and securely stored.

2

LICENSE

Apply a tailor made license

- ☐ Price
- ☑ Anonymize
- ☐ Data source
- ☐ Period

Licence is immutably linked with an assets and stored into the blockchain.

The control mechanism prevents an asset misuse.

3

MONETIZE

Earn whenever an asset you own is used

All assets are accessible on the marketplace.

Assets are delivered from the seller to the buyer over the P2P network.
